Business stewards of society for social justice

An experienced engineering firm with a long-term history of leading and organizing teams of qualified and experienced professionals to provide engineering, environmental, architectural and mission-related technical services. Our teams provide a unique capability to our client's mission with integrity and the ability to furnish independent project management and comprehensive project development, project planning, civil works design, and military design services. Established in the year 2000, SDPM operates a full-service engineering, environmental consulting, and construction management firm, headquartered in Puerto Rico.

COMMITMENT TECHNOLOGY INTEGRITY

Let us create a value-based solution in which we all prosper and flourish through a shared commitment to quality and safety.

US ARMY CORPS OF ENGINEERS – JACKSONVILLE
 2017 QA Blue Roof Mission Puerto Rico, USACE
 Jacksonville \$7.9M [W9127818F0013] Our team of technicians, project managers, and 250 QA's quickly became an integral part of the unit assigned to gather detailed data and then to inspect over 57,000 homes damaged by Hurricane Maria.
